

USDAA DOG HEIGHT RE-CERTIFICATION FORM (for Dogs with Permanent Cards)

This form is for dogs that have been previously issued a Permanent Registration Card, indicating they are certified and are needing re-measurement in order to qualify for new jump heights beginning December 1, 2022. See USDAA Rules Amendment online at USDAA.com.

Complete the Registration Information portion of the form below in its entirety before presenting it to a judge for measurement.

For those seeking to validate a dog's height for the purposes of updating permanent status, the following rules apply:

- A CMJ must certify the dog's actual withers height.
- If the measurement obtained is greater than the cut-off sought, an additional CMJ measurement may be obtained.
- If this additional measurement is equal to or less than the cut-off, then a third CMJ measurement is required to validate which of the previous two measurements is valid.

Please Return Scanned Copy to: CompetitorServices@usdaa.com
